

ANNUAL REPORT 2017

"Our mind is the
make up of who we
are. Let's not take
that for granted."

BEN UTECHT

Former NFL World Champion

MESSAGE FROM THE BOARD CHAIR & EXECUTIVE DIRECTOR

It's the uncompromising patients trying anything to overcome their diseases. It's the caregivers who go places others don't go to find the right comfort and solutions for those they love. It's the people who have suffered the loss of a loved one to a brain disease and now dream of finding a cure to honor their legacy. It's the professionals of the neurology and neuroscience community—always researching, refining, and rethinking to better their patients' lives and find cures.

These are our people. These are the people we are bringing together to defeat brain disease. These are the people whose activism, altruism, and philanthropy enabled the American Brain Foundation to grow and reinvent in 2017.

This past year as we celebrated our 25th anniversary, the American Brain Foundation reached milestones in research grants awarded, fundraising, and innovation. At the same time, we embraced a bold, new approach of inviting patients, caregivers, researchers, and many of the brightest minds to come together. We asked them to support research across all brain diseases, because we know it's all connected. If we cure one, we will cure many.

We offer heartfelt thanks to our donors for their gifts and to our partners for their commitment and support.

Sincerely,

Handwritten signature of Kevin P. Goodno in black ink.

Kevin Goodno
Board Chair

Handwritten signature of Jane Ransom in black ink.

Jane Ransom
Executive Director

With special thanks to the American Academy of Neurology, our founder and research partner.

Cure One, Cure Many

The American Brain Foundation brings researchers and donors together to defeat brain disease. We invest in research for all brain diseases, because a cure for one brain disease will mean cures for others. This is how we will reach our vision of a world with cures for brain disease.

2017 YEAR IN REVIEW

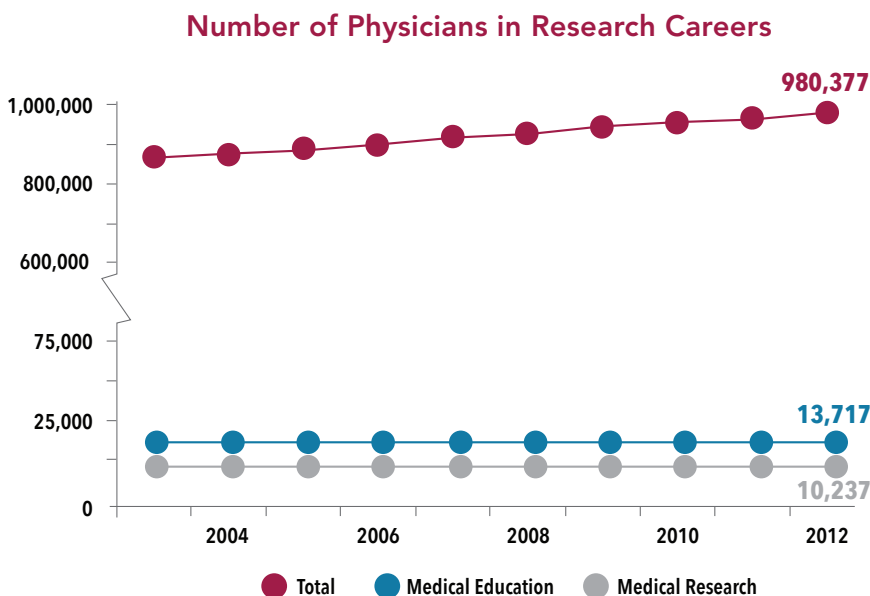

A Year of Innovation and Growth

The American Brain Foundation increased its investment in the rising generation of brain disease investigators. With an eye toward involving more people in our research mission, we built and tested the world's first neuroscience crowdfunding platform. And we honored the outstanding scientists and members of the public who are leading the fight to defeat brain disease.

Research for Discovery and Hope: Investing in the Next Generation of Researchers

There is a common denominator in the search for better treatments, prevention, and cures for migraine, epilepsy, Alzheimer's, multiple sclerosis, Parkinson's and more than 400 other diseases and disorders of the brain and nervous system. **It is the shortage of researchers.**

GROWTH OF TENURED POSITIONS IN ACADEMIC RESEARCH IS FLAT

Source: NIH Physician-Scientist Workforce Working Group, June 2014
https://acd.od.nih.gov/reports/psw_report_acd_06042014.pdf

Funding the innovative projects of early-career investigators is our cornerstone program. In 2017, in collaboration with our distinguished national partners, the Foundation granted almost \$1 million to 8 early-career researchers and raised \$3.6 million for awards in the current and future years.

American Brain Foundation Clinical Research Training Scholarships were awarded in: Alzheimer's Disease, Ataxia, Epilepsy, Muscular Dystrophy, Parkinson's Disease, and Stroke. A Clinician Scientist Development Award was granted in Multiple Sclerosis.

PROJECTS IN-PROGRESS

Because of our generous donors, the American Brain Foundation was able to fund the following research projects:

Pavan Bhargava, MBBS, MD

Johns Hopkins University School
of Medicine

MULTIPLE SCLEROSIS

Jill Napierala, PhD

University of Alabama at Birmingham

ATAXIA

Michelle Fullard, MD

University of Pennsylvania

PARKINSON'S DISEASE

Laura Graham, MPH

University of Alabama at Birmingham

STROKE

Johanna Hamel, MD

University of Rochester

MUSCULAR DYSTROPHY

Michael Hehir, MD

University of Vermont

MYASTHENIA GRAVIS

Karen Hirsch, MD

Stanford University

STROKE

Michael Kornberg, MD, PhD

Johns Hopkins University

MULTIPLE SCLEROSIS

Alice Lam, MD, PhD

Massachusetts General Hospital,

Harvard Medical School

EPILEPSY

Baijayanta Maiti, MD, PhD

Washington University

PARKINSON'S DISEASE

Mia Minen, MD, MPH

New York University Langone

Medical Center

MIGRAINE

Santosh Murthy, MD, MPH

Weill Cornell Medical College

INTRACEREBRAL HEMORRHAGE

Ellen Penney, MD, PhD

Harvard Medical School

X-LINKED DYSTONIA PARKINSONISM

Chia-Ling Phuah, MBBChir, MA, BA

Massachusetts General Hospital

STROKE

Caitlin Rollins, MD

Boston Children's Hospital and

Harvard Medical School

**NEURODEVELOPMENTAL IMPAIRMENT/
CONGENITAL HEART DISEASE**

Joseph Sabatino, Jr., MD, PhD

Johns Hopkins Hospital

MULTIPLE SCLEROSIS

Joel Salinas, MD, MBA, MSc

Massachusetts General Hospital,

Harvard Medical School

ALZHEIMER'S DEMENTIA

Ryan Schubert, MD

University of California, San Francisco

MULTIPLE SCLEROSIS

Paula Voinescu, MD, PhD

Brigham and Women's Hospital

EPILEPSY

LAUNCHING RESEARCH

"Neuro-infectious disease is still a growing field within neurology and not one that has much institutionally-backed research funding. Without funding from the American Brain Foundation none of this [my research] would have been possible."

– Michael R. Wilson, MD, 2011 grant recipient

The American Brain Foundation's unique partnership with the American Academy of Neurology has enabled us to fund the best and brightest minds through a selection process managed by the Academy's Science Committee.

OUR IMPACT

\$5.72 MILLION
Total Raised in 2017

43% INCREASE
Year Over Year

218 RESEARCH
PROJECTS
FUNDED

New Scholarships will offer \$1.65 Million for Research in Cognitive Aging and Age-related Memory Loss:

We established 10 McKnight Clinical Translational Research Scholarships in Cognitive Aging and Age-Related Memory Loss with a generous grant from the McKnight Brain Research Foundation.

3 LEWY BODY DISEASE
CLINICAL RESEARCH
TRAINING SCHOLARSHIPS
funded by the Mary E. Groff Charitable Trust

3 ADDITIONAL SCHOLARSHIPS
WITH NEW PARTNERS
1 CSDA in interventional neurology (SVIN)
1 CRTS in headache (International Headache Society)
1 CRTS in neuromuscular disease (Muscle Study Group)

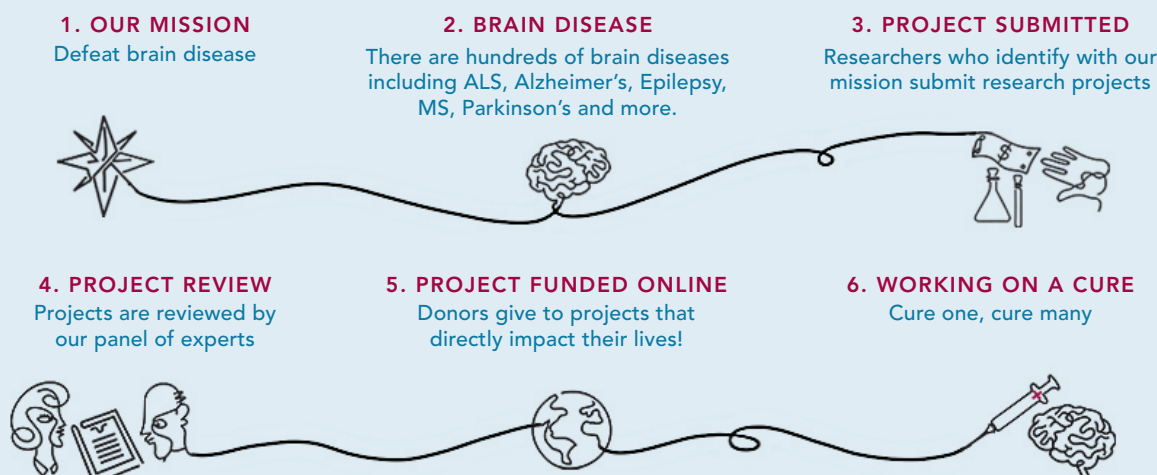

Crowdfunding for Cures

The American Brain Foundation built and tested the world's first neuroscience crowdfunding platform, with the aim of formally launching campaigns in 2018. Crowdfunding advances our mission by bringing researchers and donors together online in campaigns to raise needed research dollars and raise public awareness.

Scientific investigators may qualify their projects for crowdfunding through a two-part online application process. In a vetting process developed by the Foundation's Research Advisory Committee, projects are approved for posting by review panels of the American Academy of Neurology experts.

Once a research project is posted on our platform, the Foundation works with the researcher to launch a crowdfunding campaign in its support.

Patients, caregivers, and others can sort through the projects on the crowdfunding platform by disease, and then give directly to projects they care about most. One hundred percent of donations go directly to project support.

Honoring Leaders in the Fight to Defeat Brain Disease

B. Smith and Dan Gasby received the Public Leadership in Neurology Award.

Public Leadership in Neurology Award

B. Smith and **Dan Gasby** received the American Brain Foundation's prestigious **Public Leadership in Neurology Award**. The award honors an individual or group outside of the medical profession. Honorees are known for advancing public understanding and awareness of neurologic disease, being effective advocates for neuroscience research, and making significant contributions to improve patient care.

B. Smith, a nationally-recognized celebrity chef, restaurateur, supermodel, and lifestyle maven, was diagnosed with early onset Alzheimer's in 2013. Smith and Dan Gasby, her husband and business partner, have crisscrossed the country, making appearances at Alzheimer's educational and fundraising events. They co-authored the book *Before I Forget: Love, Hope, and Acceptance in our Fight Against Alzheimer's*, released by Random House in January 2016.

Dan Gasby recently joined the American Brain Foundation's Board of Directors to help amplify our voice in making curing brain disease a public cause.

Board Chair Kevin Goodno presents award to Dr. Francis Kittredge.

Board Chair Award

Our Board Chair Kevin Goodno presented the Board Chair Award to Francis Kittredge, MD, FAAN, the first President of the American Academy of Neurology Foundation which later became the American Brain Foundation. Dr. Kittredge pioneered the Clinical Research Training Scholarship program which remains the cornerstone of the American Brain Foundation. Eighty-seven percent of award recipients have gone on to receive NIH and other funding—an outcome on target with the Foundation's research focus.

Association of Indian Neurologists in America Lifetime Achievement Award

Through its fund at the American Brain Foundation, the Association of Indian Neurologists in America presented its Lifetime Achievement Award to Kapil Sethi, MD. The award recognizes a leader in neurology by his or her peers. Dr. Sethi was honored for his dedication in advancing the training of North American Neurologists of Indian origin and promoting innovation and research in the field of neurology.

The Rowland Circle Honors Philanthropic Leadership

In 2017 we launched a new leadership giving circle to honor the memory of Dr. Rowland. Donors who gave \$2,500 or more cumulatively during the year were honored with charter membership in the Rowland Circle. The new leadership circle recognizes past AAN president Lewis P. "Bud" Rowland, MD, FAAN, the visionary who established the Foundation.

The charter members are:

Angelo M. Alves, MD, PhD, FAAN	Adele and Francis I. Kittredge, Jr., MD, FAAN
Martha and David C. Anderson, MD, FAAN	John C. Mazziotta, MD, PhD, FAAN
Joan W. Appel, PA-C, CCRC and Stanley H. Appel, MD, FAAN	Debasish Mridha, MD
Deganit Armon, PhD and Carmel Armon, MD, FAAN	Joseph O'Shaughnessy
Ehren and Angela Babb, CAE	Jason Perlewitz
Gita and Jitendra K. Baruah, MD	Christine E. and Ben Phelps
Gabrielle and Christopher Becker	Laleh and Chris J. Prusinski, DO, FAHA, FAAN
Betsy and Jonathan Blattmachr	John and Jane Ransom
Edward S. Cooper, MD	Kathleen and Jeffrey Rosenfeld, MD, PhD, FAAN
Eugene Sorets and Merit E. Cudkowicz, MD, MSC	Steve and Shelly Rucks
Wilma J. Eaton*	Charles D. and Catherine M. Rydell, CAE
James Essey	Ralph L. Sacco, MD, MS, FAAN, FAHA
Richard P. Essey	Martin Shenkman, CPA, MBA, PFS, AEP, JD and Patti Klein, MD
B. Smith and Dan Gasby	Lisa M. Shulman, MD, F, AAN
Claudia C. Robertson, MD and J. Clay Goodman, MD, FAAN	Joseph I. Sirven, MD, FAAN
Kevin P. and Linda L. Goodno	A. Gordon Smith, MD, FAAN
Raghav Govindarajan, MD	Erik K. St. Louis, MD, FAAN
Marsha D. and Robert A. Gross, MD, PhD, FAAN	Laurel B. and James C. Stevens, MD, FAAN
Ralph F. Jozefowicz, MD, FAAN	Karyn and Benjamin J. Utecht
Edgar J. Kenton, III, MD, FAAN*	Susan Schneider Williams
	Robyn G. Young, MD

*Deceased

American Academy of Neurology Scientific Awards

Generous donors to the American Brain Foundation underwrote the American Academy of Neurology's prestigious scientific awards.

POTAMKIN PRIZE FOR RESEARCH IN PICK'S, ALZHEIMER'S AND RELATED DISEASES

Claudia Kawas, MD

Kristine Yaffe, MD

SHEILA ESSEY AWARD: AN AWARD FOR ALS RESEARCH

John Ravits, MD

OTHER AWARDS INCLUDED:

Bruce S. Schoenberg International Award in Neuroepidemiology
Dreifuss-Penry Epilepsy Award
Founders Award
Harold Wolff-John Graham: An Award for Headache/Facial Pain Research
Irwin Schatz Award for Autonomic Disorders
Jon Stolk Award in Movement Disorders for Young Investigators
Neuro-oncology Investigator Award
Neuro-oncology Scientific Award
Norman Geschwind Prize in Behavioral Neurology
Michael S. Pessin Stroke Leadership Prize
Mitchell B. Max Award for Neuropathic Pain
Movement Disorders Research Award
Neuroendocrine Research Award
Sleep Science Award
S. Weir Mitchell Award
Wayne A. Hening Sleep Medicine Investigator Award

2017 Highlights

HONORING DICK ESSEY

In a late November ceremony with family, friends and colleagues from The ALS Association, the American Brain Foundation conferred its 2018 Board Chair Award upon Richard P. Essey, the creator of the Sheila Essey Award for Research in ALS and tireless fighter for patients and caregivers.

The Foundation's 25th Anniversary was highlighted at our 2017 Commitment to Cures Fundraising Dinner, with seven donors committing to honor the occasion by investing \$25,000 in the Foundation.

The American Brain Foundation participated in a Brain Health Fair and bike helmet giveaway. The events were organized by the American Academy of Neurology, our founder and research partner.

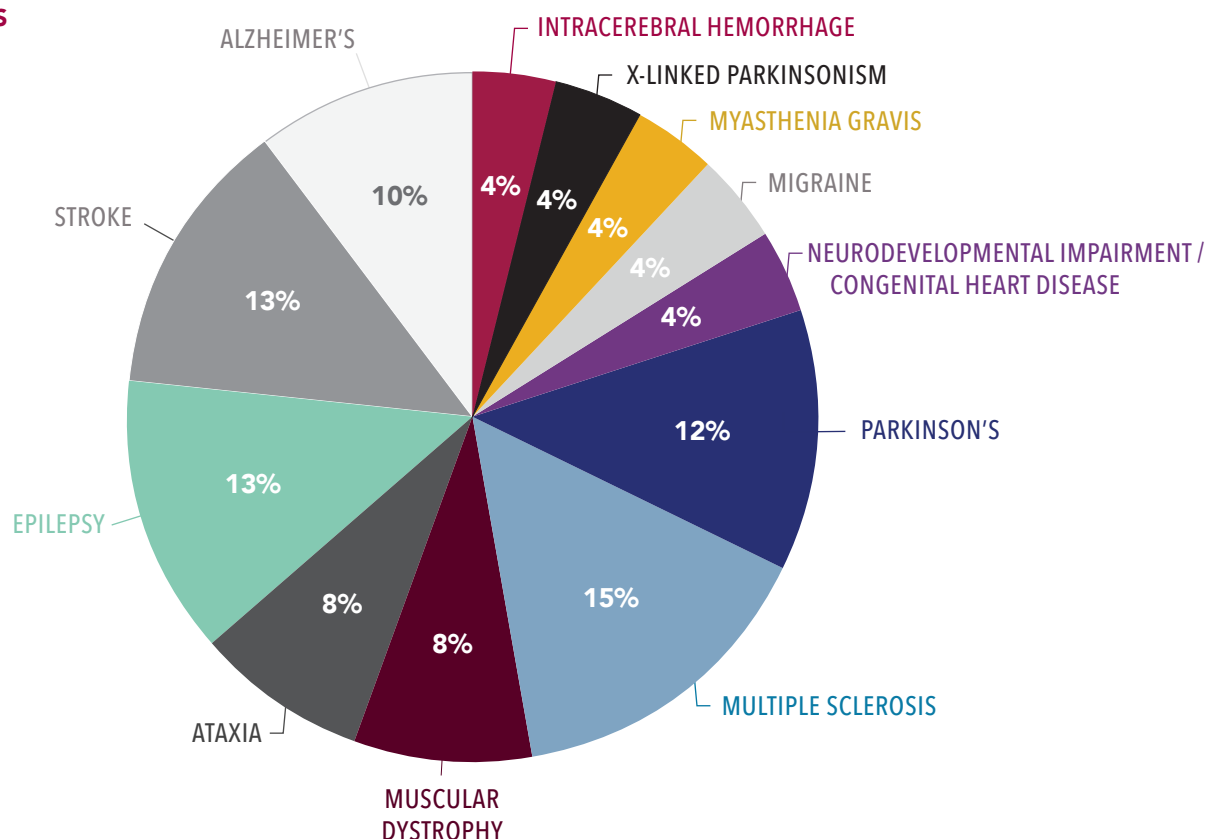

CROWDFUNDING SUPPORTS RESEARCH ON BRAIN SWELLING

With money raised on our crowdfunding platform, Dr. Charlene Ong of Harvard University will begin testing whether an innovative handheld technology that measures pupil changes can improve the diagnosis and treatment of brain swelling. Her findings could save lives and improve quality of life for those who suffer from sudden and catastrophic brain injuries.
